

LINCOLN STAR RESIDENCE V

The Living That Inspires

LINCOLN STAR GROUP

LINCOLN STAR RESIDENCE V

Where architecture meets nature. A new standard of elevated residential living in Jebel Ali Hills, created for those who seek beauty, light, comfort, and permanence.

A Life Refined

We believe that a home is more than shelter. It is the quiet place where mornings begin with light, where evenings settle into warmth, and where every detail speaks of care. Lincoln Star Group builds for those who understand the difference.

Refined living is not about excess. It is about the quality of a moment, the texture of a surface, and the way sunlight crosses a room at dusk. This is the standard we hold ourselves to, always.

Our Vision

At Lincoln Star Group, we believe that exceptional living is shaped by light, space, and the unhurried beauty of the natural world. Our vision is to create residences where every detail is in harmony with its surroundings, where the morning sun defines a room and the landscape becomes part of daily life.

We design for those who seek stillness alongside vitality, privacy alongside connection. Each Lincoln Star residence is conceived as a sanctuary, a place where refined architecture, generous proportions, and the quiet rhythms of nature converge to elevate the way you live.

Architecture As Art

Design Statement

Every facade, every proportion, every material is chosen with intention. Lincoln Star Group brings together architectural precision and timeless elegance, creating residences that stand as enduring expressions of refined living in Jabel Ali Hills.

Nature & Living

At Lincoln Star Group, every residence is conceived in harmony with the natural world. Lush greenery, open skies, and the gentle presence of water are woven into the fabric of daily life, not as amenity, but as essence.

Biophilic design principles guide every landscape decision. From shaded garden corridors to flowering terraces and reflective water features, nature is never far. Life here is rooted in calm, growth, and the quiet beauty of the living world.

Light & Air

Designed for Light

Every residence at Lincoln Star is oriented to capture the sun from morning to evening. Floor-to-ceiling glazing, deep-set terraces and cross-ventilated layouts ensure that natural light and fresh air are constant presences, softening interiors, lifting spirits and connecting daily life to the open sky beyond.

Living Well

Wellbeing at Lincoln Star is not a feature, it is the foundation. Every detail of daily life has been considered to nurture the body, calm the mind, and restore a sense of ease. Natural light, open air, and quiet rhythm define the pace of living here.

From morning rituals to evening stillness, each space invites you to live with intention. Generous proportions, soft natural materials, and a connection to the outdoors ensure that wellness is woven into the fabric of every day, not as an amenity, but as a way of life.

The Residence

A Home Like No Other

Introducing Lincoln Star Residence V, a thoughtfully crafted G+4 apartment residence where architecture, nature, and refined living converge.

Set within Jebel Ali Hills, the residence is designed around generous proportions, natural light and a calm relationship with its surroundings. Every detail has been considered to create spaces that inspire, comfort, and endure.

Interiors

Every interior is conceived as a composition of natural materials, refined proportions, and considered detailing. Pale limestone, brushed oak, and honed stone surfaces are selected for their warmth and tactile quality, creating spaces that feel both elevated and deeply liveable.

Ceilings are generous, joinery is bespoke, and every threshold is designed with precision. The palette is restrained, ivory, warm sand, and soft taupe, allowing natural light to define the atmosphere throughout the day.

Location

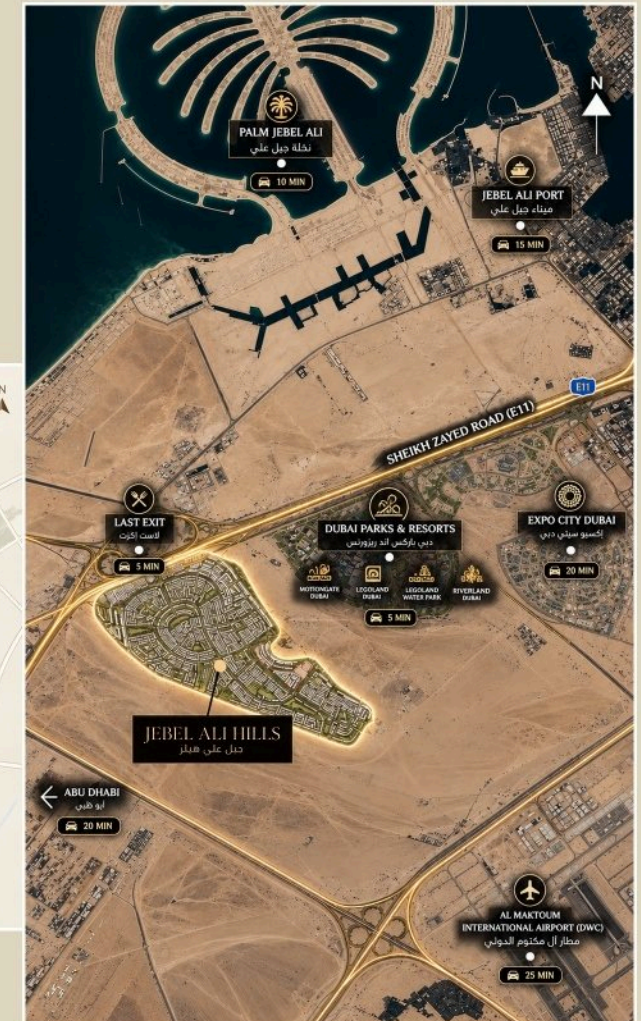

Jebel Ali Hills - Connected to What Matters

Located in Jebel Ali Hills, Lincoln Star Residence V is positioned along Sheikh Zayed Road (E11), one of the UAE's principal transportation corridors.

The community offers a strategic residential setting close to Dubai Parks and Resorts, with convenient connectivity towards Dubai and Abu Dhabi.

Jebel Ali Hills is planned as a diverse community comprising residential villas, apartments and mixed-use buildings, creating a growing destination for modern living and long-term investment

With its strategic position along Sheikh Zayed Road and proximity to both Dubai and Abu Dhabi, Jebel Ali Hills is emerging as a destination with strong long-term residential and investment potential

Your First Impression

From the moment you step inside, the lobby of Lincoln Star Group announces a new standard of arrival. Warm natural light fills every corner, marble surfaces reflect a quiet elegance, and the architecture itself becomes a welcome, unhurried, refined, and entirely your own.

COMMUNITY

Jebel Ali Hills

A Community Designed for Tomorrow

Jebel Ali Hills is envisioned as a connected residential destination in Saih Shuaib, strategically positioned along Sheikh Zayed Road (E11). The development brings together residential villas, apartment communities and mixed-use buildings, creating a balanced environment designed around contemporary living and long-term growth. Its strategic location between Dubai and Abu Dhabi makes Jebel Ali Hills an increasingly attractive destination for residents and investors seeking accessibility, connectivity and future potential.
