

LONGFOR

INTERNATIONAL CENTER

International City

Launched in 2002, Dubai International City is a large-scale mixed-use development located in the Al Warsan area of Dubai, spanning approximately 800 hectares.

Its proximity to Dubai International Airport and Dragon Mart enhances its appeal to both residents and investors, offering strong value within a culturally diverse and well-connected environment.

As a commercial destination, Dubai International City benefits from consistent footfall driven by a large residential population, regional trade activity, and SME demand.

Commercial projects in the area offer attractive entry pricing, strong rental potential, and long-term growth prospects, making them well-suited for offices, retail, and service-oriented businesses.

LONGFOR GROUP

The LONGFOR GROUP's core shareholders have been active in Dubai since 2008, gradually building a large-scale and well-established international trading ecosystem. Over the past 18 years, the LONGFOR GROUP has successfully developed STAR LANG Lighting, now recognized as one of the leading lighting trading enterprises in Dragon Mart. STAR LANG operates a 3,000-square-meter flagship showroom and multiple retail outlets across key locations in Dubai. The LONGFOR GROUP's business footprint further extends across the Middle East, with branch operations in Abu Dhabi, Oman, Saudi Arabia, Bahrain, and Kuwait.

From international trade to real estate development, Dubai LONGFOR GROUP has accumulated extensive regional experience, supported by strong financial foundations and a large professional team. With a clear strategic vision and deep-rooted commitment to the Middle East market, the Group is well-positioned to grow into a leading Chinese real estate developer in the region.
