AMWAJ

DEVELOPMENT

A low-angle, close-up shot of a person's legs and feet as they walk barefoot on a wet, sandy beach. The person is wearing a flowing, teal-colored dress that is caught in a breeze, creating soft folds and movement. The wet sand reflects the person's legs and the dress, creating a clear mirror image. The background is a bright, slightly blurred expanse of the beach and the ocean, with gentle waves visible in the distance. The overall mood is serene and evocative, capturing a moment of connection with nature.

The World Islands

Kaia Residences brings the best of seaside living to life on Dubai Islands. Set across two elegant buildings, it offers stunning beachfront views and a calm, modern atmosphere. It's more than just a home, it's a lifestyle surrounded by water, light and space in one of Dubai's most exciting and fast-growing areas.

Born from the harmony of nature, Kaïa Residences draws inspiration from the serene beauty of the beach and sea. Every detail reflects a seamless blend of natural elements. The textures of sand and rock, the calmness of water, the lushness of plants and the soft play of shadows they create.

Kaïa is more than a residence; it's a place where you truly belong, where architecture and nature coexist, inviting you to live, breathe, and connect with the world around you.

Kaïa embodies Amwaj's vision of creating spaces defined by purpose, purity, and emotional connection.

Rooted in its diverse origins, the name Kaïa draws from the Greek meaning "earth," the Hawaiian meaning "sea," and the Scandinavian meaning "pure." Together, these meanings symbolize a harmonious balance between nature and design flowing like water, grounded like the earth and standing gracefully like the waves that inspire us.
