PULSE OF THE OCEAN

Sea Cliff by Imtiaz feels like a coastline you can live on. The structure rises the way cliffs are shaped over time, in gentle layers of light, sand, and breeze, carrying the warmth of the sun and the quiet rhythm of the tides.

WIND & TIDE

The form of Sea Cliff rises from the very geology that cradles it, layered like coastal strata, shaped by the rhythm of waves, and sculpted by the quiet logic of wind-smoothed cliffs.

AN OCEAN INSPIRED OPUS

WHERE THE LAND OPENS TO THE WATER

A dynamic waterfront community directly connected to the mainland by well-established bridges and roadways. From this address, coastal calm connects effortlessly to the city, with Dubai International Airport, Downtown Dubai, and Dubai Creek all within convenient reach.

DUBAI ISLANDS

Dubai Islands stands at the centre of Dubai's 2040 Urban Master Plan and D33 Economic Agenda, reflecting a long-term vision for sustainable growth, elevated living, and global connectivity. As part of this evolving coastal destination, Sea Cliff is positioned within a future shaped by thoughtful development, refined lifestyles, and enduring value.

ARCHITECTURE IN TUNE WITH THE COAST

Earth-toned materials and timber-textured soffits lend a tactile warmth, anchoring Sea Cliff in its natural island landscape. Its form steps forward and retreats like carved terraces, allowing the façade to breathe with the passing hours. As light moves, the building seems to move with it, alive to the daily choreography of the sea and sky.

WHERE THE
DAY LEARNS
THE SHADES

The mornings begin with drifting light across the water, a breeze that fills the air, a feeling of life within, and evenings settle into the soft glow of Dubai's skyline, while the shoreline stretches, quiet and unbroken.

A SANCTUARY
