YAS
POINT

Where Yas Island's next chapter begins

At the northernmost point of Yas Island, where land meets open water, the latest iconic destination is taking shape. As Aldar continues to expand possibilities on Yas Island, Yas Point introduces a new way to experience the island. A connected destination where people can live, visit, gather and explore. Moments from the most celebrated attractions and entertainment, where wonder is always within reach.

An investment destination, decades in the making

Few destinations combine global appeal with long-term growth quite like Yas Island. Supported by ongoing investment, rising visitor numbers and a growing residential community, the island continues to evolve. With limited opportunities remaining to own a home along Yas Island’s coastline, Yas Point offers one of the most sought-after addresses.
