RESIDENCES

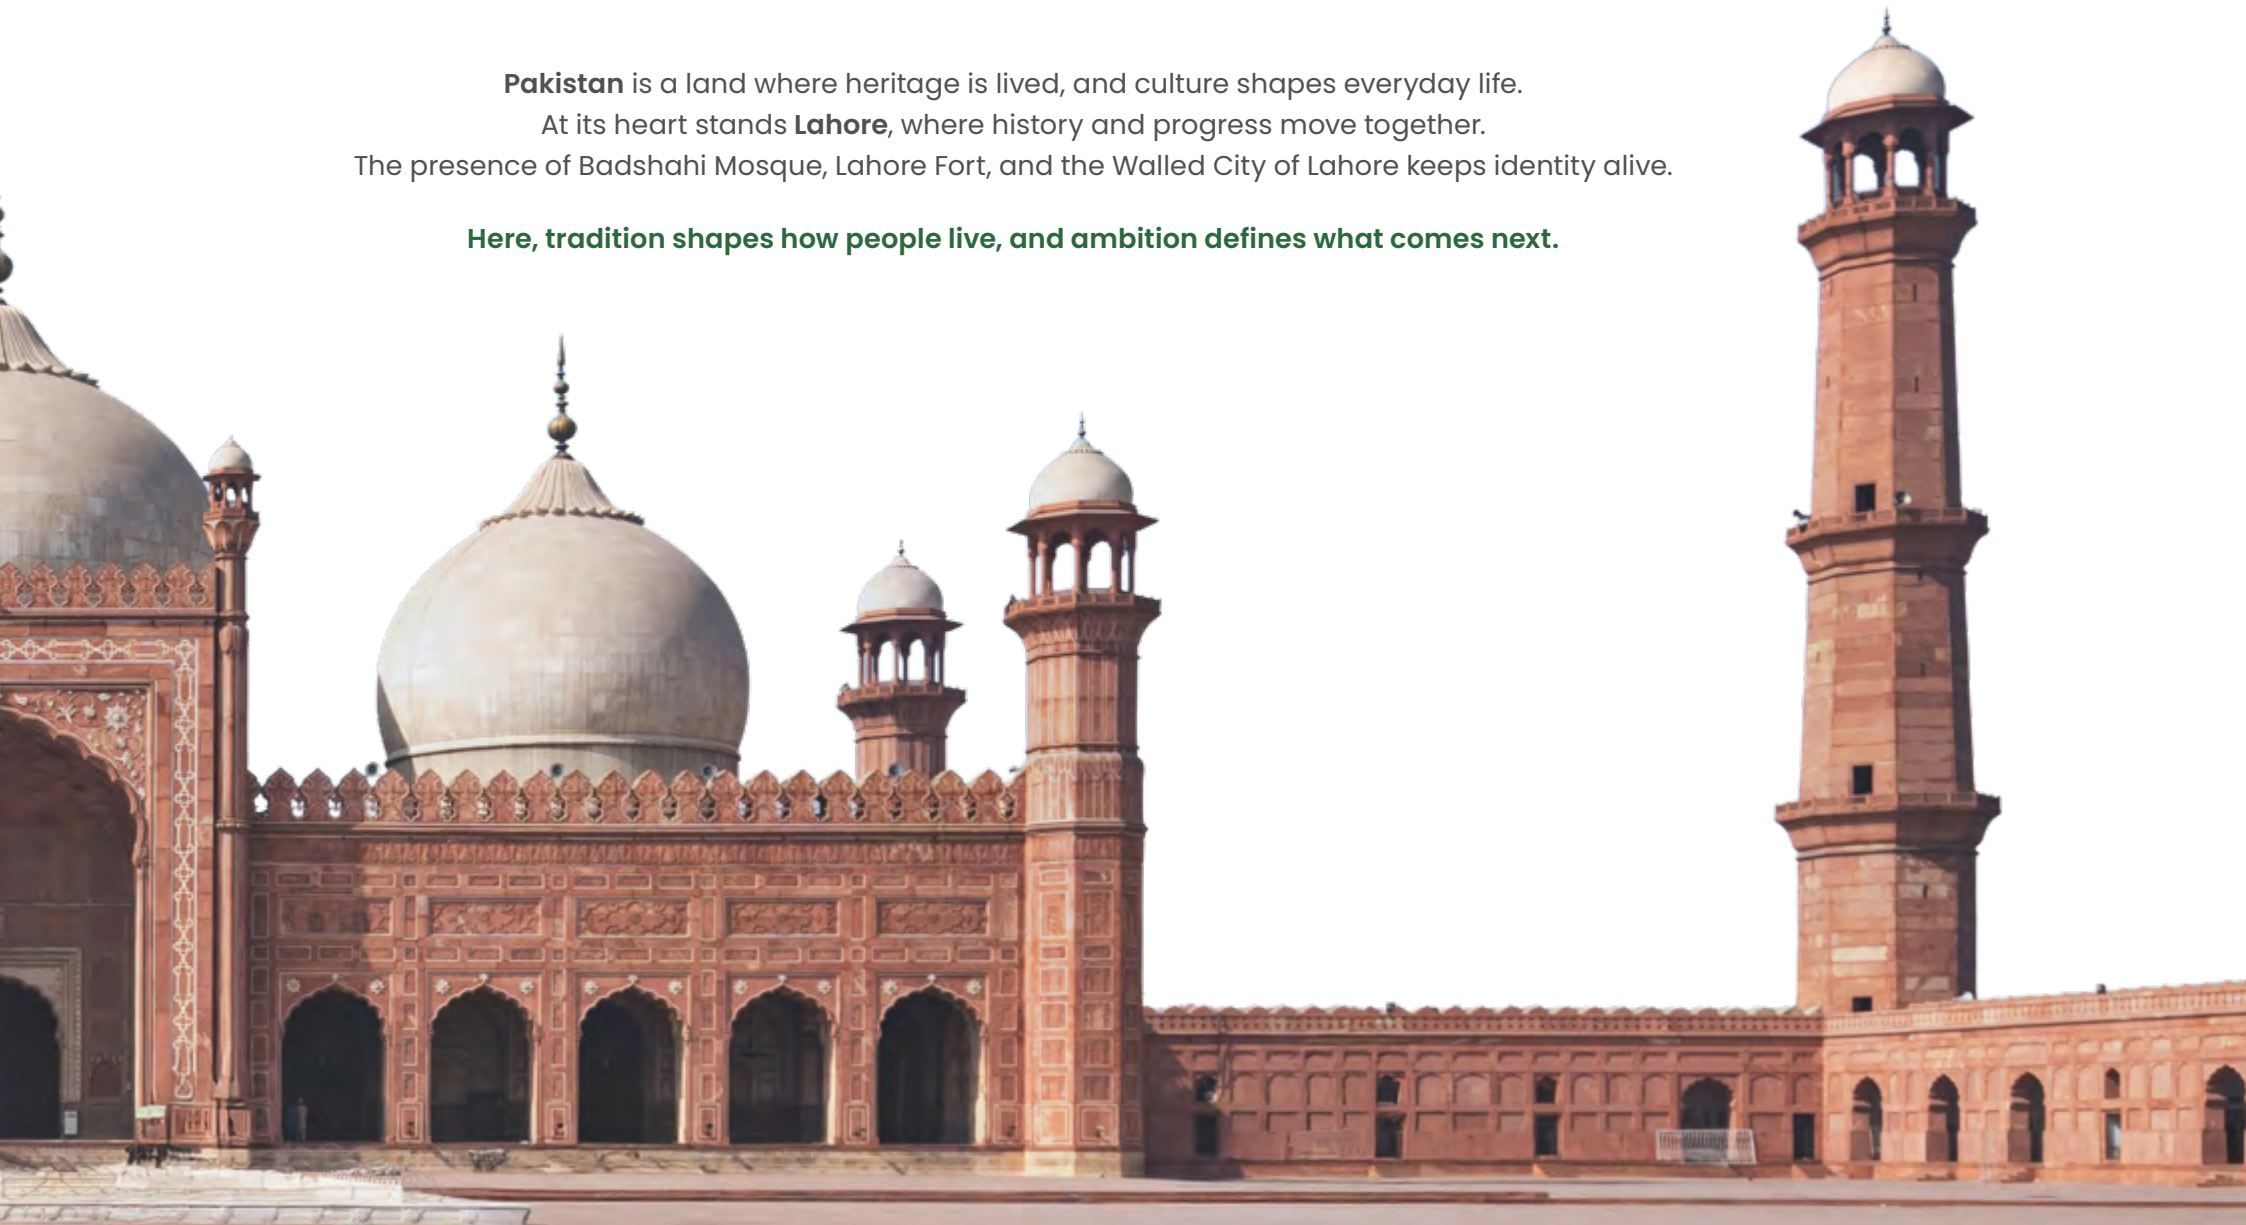

WELCOME TO **PAKISTAN**

Pakistan is a land where heritage is lived, and culture shapes everyday life.

At its heart stands **Lahore**, where history and progress move together.

The presence of Badshahi Mosque, Lahore Fort, and the Walled City of Lahore keeps identity alive.

Here, tradition shapes how people live, and ambition defines what comes next.

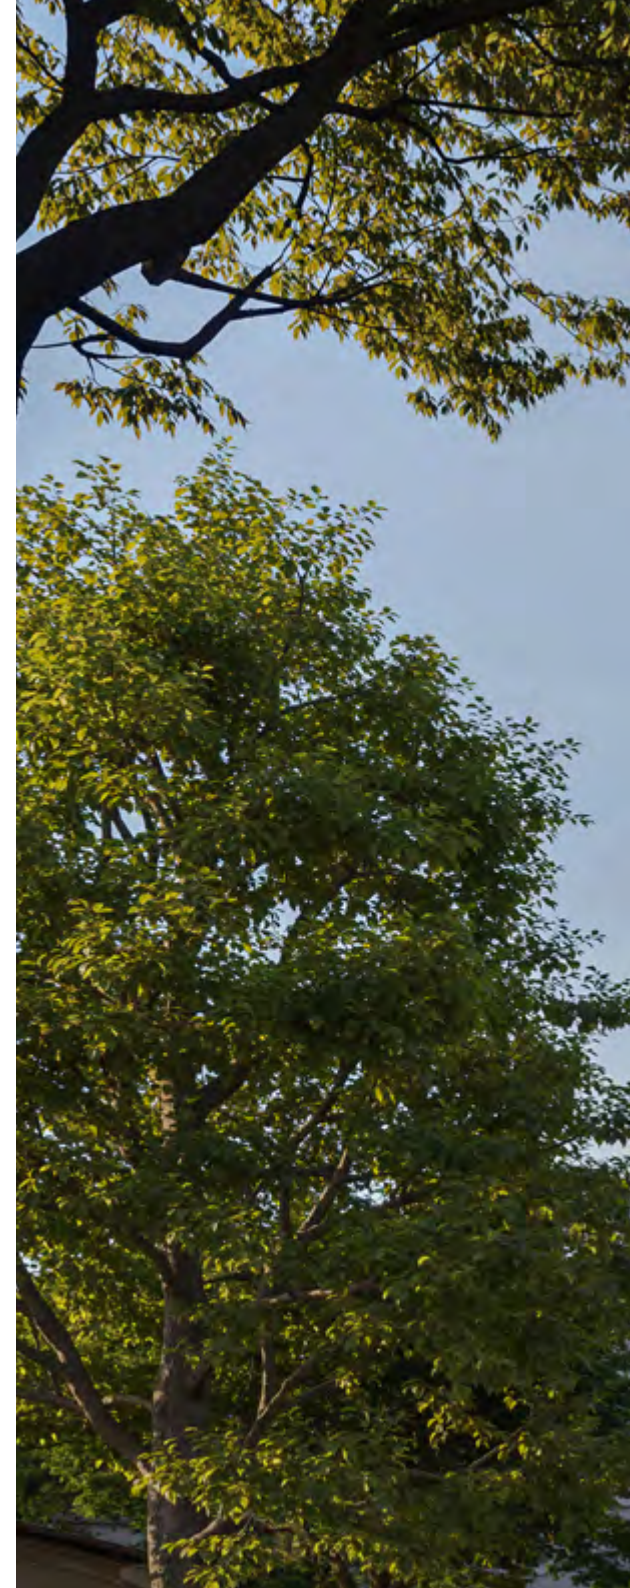

In the heart of Gulberg, where Lahore never pauses and ambition shapes every street, Reportage Residences rises with quiet confidence.

A place where movement feels natural, where living, working, and unwinding flow into one seamless rhythm. Every space holds intention. Every corner invites you to slow down, even as the city moves fast around you.

Here, elegance shows in the details, in the light that fills the rooms, in the balance between openness and privacy. Life feels more considered, more yours. Set within one of Lahore's most iconic districts, the project carries the spirit of the city, its history, its energy, its future, all in one place.

Developed by Reportage Pakistan, it offers more than a residence. It gives you a sense of ground, a sense of pace, a place where days unfold with clarity, where moments are made, and memories find their home.
